Art Unit: 3723

Claims 1-4 are rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention.

In claim 1, line 5 and claim 4, line 5 the "bushing" is not clearly understood. The descriptive portion of the specification makes no mention of a bushing. Is this an element that is separate from the nut?
